# Waiting Room Games

10 quick games for kids ages 2-5 - no supplies needed

1. **I Spy**
   Take turns: I spy something blue. Older kids can try shapes or letters.

2. **Count It**
   How many chairs are in the room? How many people wear glasses? Count together in a whisper.

3. **Finger Friends**
   Your fingers become characters. They say hello, have a little adventure and go to sleep in your pocket.

4. **Tiny Simon Says**
   Simon Says with small, quiet moves only: wiggle your nose, blink twice, tap your knee.

5. **Guess the Animal**
   Give clues one by one: I live on a farm, I say moo. Your child guesses. Then switch.

6. **Draw on My Hand**
   Trace a shape or letter on your child's palm with your finger. Can they guess it with their eyes closed?

7. **Shape Hunt**
   Look for circles in the room: a clock, a button, a light. Then squares, then triangles.

8. **Whisper Echo**
   Whisper a funny word. Your child whispers it back. Make the words longer and sillier.

9. **Story Chain**
   Start a story with one sentence. Your child adds the next one. Take turns until the story ends.

10. **Quiet Stretch**
    Stretch up tall like a tree, then fold small like a seed. Slow stretching helps a wiggly body calm down.
